PlanET Biogas Solutions is pleased to announce it has extended its relationship with Christopher Bush. Effective today, Chris will represent PlanET Biogas Solutions in Western Canada. Chris has a deep and passionate background in anaerobic digestion including the development of the Catalyst Power Inc. Abbotsford site, referred to as the "The Farm of the Future...Now". Chris is located in Abbotsford BC (an hour from Vancouver).

We believe this extended relationship will assist in promoting the benefits of anaerobic digestion, specifically; greenhouse gas reduction, improved farm waste management and the production of stable organic fertilizer, effectively leveraging the benefits for full resource recovery, and new revenue.

Individuals interested in anaerobic digestion are welcome to contact Chris at 604-999-2653 or the offices of PlanET Biogas Solutions in St. Catharines, Ontario at 905-935-1969. PlanET Biogas Solutions designs, constructs and services anaerobic digestion systems which produce biogas for service in combined heat and power packages or sale to natural gas distributors.

PlanET (pronounced "plan-e-t") Biogas Solutions was incorporated in October, 2006. PlanET is a Joint Venture between Martin Lensink and PlanET Joint Venture, which is based in Vreden, Germany. PlanET Biogastechnik GmbH ranks among the leading biogas plant builders in Germany and Europe, and has designed, constructed and services over 150 anaerobic digestion systems.

Ken Campbell
President, PlanET Biogas Solutions
