

Thank You very much for your enquiry!

In order to perform an economic feasibility calculation for a biogas installation, we require some information about your operation. Please return this completed form via email, fax or mail. We will then perform a calculation for your installation as quickly as possible. Any information you share with us is confidential.

1. Your Contact Details

Date: _____

Name: _____	Street: _____
City: _____	Province: _____
Postal Code: _____	Telephone: _____
Fax: _____	Email: _____

2. Manure

Number of Animals	Animal Type	Weight Range (specify kg./lb.)	Manure Volume (/a)	Notes (access to pasture, secondary business, fed with liquids)

How much liquid manure is produced annually in the business? _____ m³

How much dry manure is produced annually in the business? _____ tonnes

Without considering a biogas operation, will you require additional manure storage in the future?

Amount _____

3. Existing Liquid Manure Storage / Manure Pits

Type	Location	Volume (m³)

4. Area Under Cultivation

Type of Crop	Acres

5. Manure from Nearby Sources

Number of Animals	Animal Type	Weight Range (specify kg./lb.)	Manure Volume (/a)	Notes (access to pasture, secondary business, fed with liquids)

6. Co-Fermentation

Are you considering off-farm materials?

Products	Annual Amounts

7. Energy Situation

Average heat use of the operation in the previous years:

Usage Location (home, barns)	Amount/YR (natural gas, heating oil)	Heating System (hot water, gas)

8. Nutrient Management Plan

Do you have a Nutrient Management Plan for your operation?

9. Notes / Comments

A large, empty rounded rectangular box with a thin dark green border, intended for handwritten notes or comments.
